

ICS 3756-88

8 June 1988

MEMORANDUM: [REDACTED]

Chief, Regional Issues Group,  
Office of Soviet Analysis/DDI

FROM: [REDACTED]

Director, Requirements and Evaluation Office, ICS

SUBJECT:

Aircraft as a Cooperative Measure in Arms Control [REDACTED]

1. It has come to my attention recently that as the DCI's representative to the Interagency Group concerned with conventional arms control, you are seeking information about possible "open skies" proposals. Earlier this year, in conjunction with the DCI's Arms Control Intelligence Staff, this office prepared a concept issue paper on using aircraft as a cooperative measure. It was done at the behest of Admiral Inman's Defense Science Board START Verification Panel. I am attaching a copy of that paper for your use as appropriate. [REDACTED]

2. I hope this proves helpful. Should you have any questions or comments, my action officer on this matter, [REDACTED] can be reached at [REDACTED]. Additionally, we would be interested in receiving material that you generate on this subject. [REDACTED]

Attachment: a/s
